

These first aid kits were inspired by my golden retriever, Ryan. He's my best pal and my running partner. Years ago while we were running, he cut a deep gash in his paw. I carried him home, bandaged him as best I could and drove him to the vet. I asked the vet where I could get a pet first aid kit, and he said there weren't any. We created Bow-Ow® for dogs and Me-Ow® for cats so other pet owners wouldn't have to experience the panic of not knowing what to do or not having the right supplies. It's peace of mind for you and your best friend.
